| **Database** | MongoDB, MySQL |

## PERSONAL PROJECTS

### ChatsApp

- Chatsapp is a **realtime web-based chat app** that allows you to chat with your friends in real time. It is powered by **Firebase Auth** and **Firestore** and styled using Google's **MUI**.
- Technologies : **Material UI**, **ReactJS**, **Firebase**.

### Spotify Clone

- A Spotify Clone with built-in player powered by React and Spotify API, with a beautiful and responsive design. The project was an opportunity to showcase my skills in web development and API integration.
- Technologies : **ReactJS**, **SpotifyAPI**, **Netlify functions**, npm - react-spotify-web-playback

### Task Management System

- A Task Management System built using **MERN** stack with **user authentication** and **user roles**.Users can log in, assign tasks to team members and change the task status assigned to them.
- Technologies : **Material UI**, **ReactJS, ExpressJS**, MongoDB, JWT.

### Twitter Bot

- A Twitter bot built using only javascript, that posts a random picture from the internet with a random quote printed on it everyday. Technologies : JavaScript, **NodeJS**, npm - **twitter-api-v2, JIMP, axios**

## CODING PROFILES

- Solved 350+ questions on Leetcode
- Solved 200+ questions on GFG practice
- 3 star coder(Max Rating: 1800) at codechef
- 1198 rating in codeforces

## ACHIEVEMENTS

- Got AIR 420 in TCS Codevita 2022 round-2

## CERTIFICATES

- Database Programming with SQL - Oracle Academy
- The Complete Web Development Bootcamp - By Angela Yu(Udemy)
